Dear Ms. Burns:

The Utah State Historic Preservation Office has reviewed our cultural resource files for the requested area of potential effect. A 1979 archaeological survey located four archaeological sites in or near the area of potential effect; SA 8623-25 and 8631. USHPO recommends that a cultural survey be completed of this project because of high archaeological sensitivity.

This information is provided to assist in identifying historic properties, per §36CFR800 for Section 106 consultation procedures. If you have questions, please contact me at (801) 533-3555. My email address is: jdykman@utah.gov

As ever,

James L. Dykmann
